Mailbox

WHAT IS SIGNATURE HOSTED EXCHANGE 2016?

Our big British mailbox enables your customers to store up to a massive 250GB of emails, with an option to go unlimited with our new Enterprise mailboxes.

Based on the Exchange platform, our mailboxes are the gold standard in messaging services with an easy to use interface that seamlessly works with Outlook.

FIRST-CLASS BUSINESS EMAIL

Our Signature Hosted Exchange is used by 130,000+ business individuals and is widely regarded as the #1 choice for IT resellers like you.

All our 2016 mailboxes are hosted on UK shores in multiple datacentres that are quad protected for ultra resilience, with round-the-clock support from our technical team.

FAST AND EASY MIGRATION

With Signature Hosted Exchange, you can easily make healthy profits without sacrificing on customer security. There's no need to pay extortionate amounts for hardware every few years, on-going maintenance or licensing fees when everything is taken care of by Giacom.

So, when it comes to migrating from an on-premises environment or from another cloud provider, we offer an easy to use, simple tool for importing mailboxes. Plus, our technical team are always on hand to keep the process as smooth as possible.
