

MICROSOFT 365

The ultimate Office 365 security package

WHAT IS MICROSOFT 365?

Microsoft 365 brings together the productivity of Office 365 and the security of Windows 10 and EM+S. It's cost-effective bundling is everything a business needs to run effectively

and empowers employee communication, whilst protecting data without needing complex IT management or expensive on-premises equipment.

SUPPORT YOUR CUSTOMERS GDPR COMPLIANCE

Data controllers need access to third-party data processors that meet GDPR requirements for personal data processing. Microsoft 365 meets these requirements

and will support your customers in their journey to compliance. Features included are:

1. Threat protection for Emails
2. Malware, Virus, Spyware Detection and Removal with Boot Time Protection
3. 2 Factor Authentication
4. Mobile device data protection
5. Encrypted data on devices
6. Benchmark controls with Secure Score
